writetoankurs@gmail.com

Seasoned Software Developer with 8+ years of experience in building cutting-edge software solutions. Skilled in development, user interface design, and process automation, I consistently deliver high-quality solutions that optimize user experiences and streamline operations. With a track record of successfully completing diverse projects and achieving exceptional results, I bring strong analytical skills and a collaborative approach to every endeavor.

PROFESSIONAL EXPERIENCE

Software Development Engineer
Fancode by Dreamsports
Apr 2020 - Present

- Led a front-end team to deliver high-quality web and mobile applications from scratch.
- Designed frontend architecture for scalability, maintainability, and performance.
- Developed a recycled list feature for an e-commerce application to improve user experience.
- Implemented CI/CD pipelines for continuous integration and deployment of applications.
- Optimized application performance through code splitting, chunking, and lazy loading.
- Developed and implemented testing frameworks for front-end applications to ensure code quality and maintainability.
- Improved search engine ranking and developed PWAs using SSR, Service Workers, and Web Workers.
- Designed and implemented a front-end design system for consistent UI across applications.
- Automated MIS reporting through integration with backend systems.
- Collaborated with developers, designers, and stakeholders to deliver tasks on time.
- Stayed up-to-date with emerging technologies and industry trends.
- Experience in a fast-paced, dynamic environment with a focus on meeting project deadlines.

Dreampay by Dreamsports
- Successfully implemented seamless payment solutions to optimize user experiences and streamline transactions. Expertise in payment gateway integration, ensuring secure and reliable payment processing.

Frontend Developer
iProgrammer Solutions Private Limited
Oct 2018 - March 2020

- Gonogo product- Loan origination system for banks and financial institutes. Successfully delivered to HDFC and ABFL.
- Successfully optimized Angular application to reduce first load time from more than 60 seconds to under 3 seconds.
- DNM, MRDN, Liabilities Systems, and Service Digitization for Yes Bank.
- Implemented payload encryption for all projects.

Frontend Developer
AbyM Technology
March 2016 - Sept 2020

- Inventory Management System: Developing and designing the UI for the inventory module used for buying and selling of buidling material.

SKILLS & PROFICIENCIES

Javascript, ReactJs, React Native, Redux, Angular, NodeJs, HTML, CSS, MEAN, Typescript, MongoDB, SQL, GIT, Github actions, Design system, Problem solving, AWS, Webpack, Jest, Jenkins, Docker, S3, Amazon EC2 Container Services, Datadog, Kubernetes, New Relic, Sentry

EDUCATION

Bachelors of Engineering in Electronics and Telecommunication
DY Patil College of Engineering, Pune University

HSC, SSC
Army Public School

LANGUAGES

- English (Proficient)
- Hindi (Proficient)

<ANKUR SINGH/>

Dear Hiring Manager,

I am writing to express my strong interest in the Software Development Engineer position/ Architect at your organization. As a frontend developer with expertise in JavaScript, ReactJS, React Native, Angular, Node.js, HTML, CSS, MongoDB, and SQL, I am excited about the opportunity to contribute to your team and leverage my skills in design system and architecture designing.

Throughout my 8 years of experience, I have not only developed proficiency in frontend technologies but also gained extensive knowledge in creating scalable design systems and designing robust software architectures. I have successfully implemented design patterns and principles to ensure maintainable and efficient codebases. My expertise in frontend development, combined with my ability to architect and design scalable systems, has enabled me to deliver high-quality and visually appealing software solutions.

Here are the key qualifications I bring to the table:
- Proficiency in JavaScript, ReactJS, React Native, Angular, Node.js, HTML, CSS, MongoDB, and SQL
- Strong understanding of frontend development principles and best practices
- Experience in designing and implementing scalable design systems
- Expertise in software architecture design, ensuring efficiency and scalability
- Ability to collaborate effectively with cross-functional teams to translate requirements into functional solutions

I am confident that my technical skills, passion for design, and ability to design scalable architectures make me a valuable asset to your organization. I am eager to contribute my expertise and collaborate on challenging projects.

I would welcome the opportunity to discuss my qualifications further and learn more about your organization's goals and requirements. Please feel free to contact me at **+91-7011854219** or **writetoankurs@gmail.com** to schedule an interview.

Thank you for considering my application. I appreciate your time and consideration, and I look forward to the possibility of joining your team and contributing to your organization's success.

Yours sincerely,
Ankur Singh
